

Model: SM-F100

# DISPOSABLE PROTECTIVE FACE MASK

For General – Non Surgical Use

Bacterial Filtration  
Efficiency (BFE)

Greater Than  
**>>99%**

#### Enhanced Filtrations

3 Layer Protection for  
enhanced filtration

#### Rapid Inactivation

Improved filtration  
efficiency

#### Optimized Breathability

Breathability and  
comfort.

## 3-Ply Anti-Microbial

- Surgical grade 3 ply disposable face masks, with >95% bacteria and Particle filtration efficiency.
- Soft Bond through Ultrasonic Welding ensures strongest construction, Eliminating Holes and defects.

### Features:

- Latex Free Ear loop made up of Round Spandex band
- Hypo Allergenic materials
- Splash Protection with excellent Air permeability.
- Sweat Resistance soft comfort inner layer.
- Soft Bond through 100% Ultrasonic Welding ensures strongest construction, Eliminating Holes and defects.
- Adjustable Nose Clip made up of malleable Aluminum for firm and perfect fit.

### Specifications

|               |   |
